Practice Exam

The practice exam consists of 20 questions from the following domains in the indicated proportions. The certification exam will consists of 100 randomly selected questions from these categories also in the indicated proportions. **A minimum passing score on the WD Certified Exam is 80%**.

Basic Internet History & Computer Knowledge	10%
Web Graphics Concepts	10%
HTML 5 & CSS 3	50%
Client and Server Side Scripting (JavaScript & PHP/MySQL Scripting)	25%
Website Administration	5%

Purpose of the practice exam:

The purpose of the practice exam is to give students and educators an idea of the style and types of questions that will be asked on the certification exam and how the questions will be worded.

Preparing for the certification exam:

To be successful on the certification exam, candidates should thoroughly study and be familiar with each of the topics and categories included on the exam stated on the WD Certified Exam Information document which can be located on the www.ieclass.com website on the Certification Exam page.

Exam format:

The certification exam is offered online and administered by an approved proctor. There is no time limit on the exam, however students may be dismissed from the exam at the proctor's discretion for intentionally delaying the completion of their exam or sleeping, or for any other reason the proctor feels is inappropriate testing behavior.

The exam consists of 100 multiple choice question, each with 4 possible answer choices. Candidates should select the best possible answer for each question.

Candidates that do not pass the certification exam may retake the exam after a 30 day waiting period.

Technical Issues during the exam:

Because the exam is Internet based, there is always a possibility of technical issues arising during the exam. It is strongly advised that there be a backup date planned to administer the exam just in case something goes wrong. Should a student's individual exam become corrupt or unrecoverable during the course of the exam, IE Class Inc., should be notified of the situation and the students exam will need to be invalidated and the student may retest at the convenience of the proctor. A new Authorization Code will be issued for the retest. The 30 day waiting period will not apply in this situation to readminister the exam.

1. Which of the following is NOT a valid image file type?
    A. .png
    B. .rst
    C. .jpg
    D. .bmp
